## BOOK REVIEWS

**Title:** *Memoirs of a Bathtub Psychic*  
**Author:** Bethanne Elion

When she was just a toddler, Bethanne Elion discovered she had a very unusual gift. She could step "inside" the skin of other people to feel and experience their emotions and memories. In *Memoirs of a Bathtub Psychic*, she recounts her early negative experiences as a child psychic, and how the tragic death of her Newfoundland dog, Sophie, opened the door to holistic healing and led her to an acceptance of her natural gifts, which seem to become especially powerful when she's soaking in the tub.

An animal communicator and nutrition consultant as well as a psychic medium, Bethanne uses her abilities to help clients ranging from organic dairy farms to ill and recovering dogs and animals with behavioral issues.

If you've ever been skeptical about psychic abilities, this book will help put your doubts to rest. Bethanne writes about her amazing experiences with wit, honesty and eloquence, making *Memoirs of a Bathtub Psychic* very hard to put down.

**Title:** *The Safe Dog Handbook*  
**Author:** Melanie Monteiro

Dogs are a lot like small children – they're curious and active and easily get into scrapes. *The Safe Dog Handbook* helps you keep your dog from getting injured or ill by teaching you how to create a safe home and outdoor environment for him.

Written by author Melanie Monteiro, who is also certified in canine nutrition and animal first aid, this beautifully-illustrated guide covers a wide range of hazards and shows you how to protect your four-legged friend. It includes dog- and puppy-proofing basics, travel tips, pool safety, and how to protect your dog during hot or cold weather. There's also a toxic plant list and an emergency first aid guide for a range of situations, such as vomiting, bleeding, burns, choking, poisoning and fractures.

You may think your home and garden are safe, but accidents can sometimes arise in the most sudden and unexpected ways. *The Safe Dog Handbook* will help ensure this doesn't happen, and that your dog stays safe and healthy.
